

4 Phases of ... ROADS Engagement Pathways

This presentation will outline the purpose of the Engagement Pathways, the four phases of the Engagement Pathways, & the ways that we as staff can engage in this work.

When we all do something it helps to change everything.

1 Phase 1: Introduction

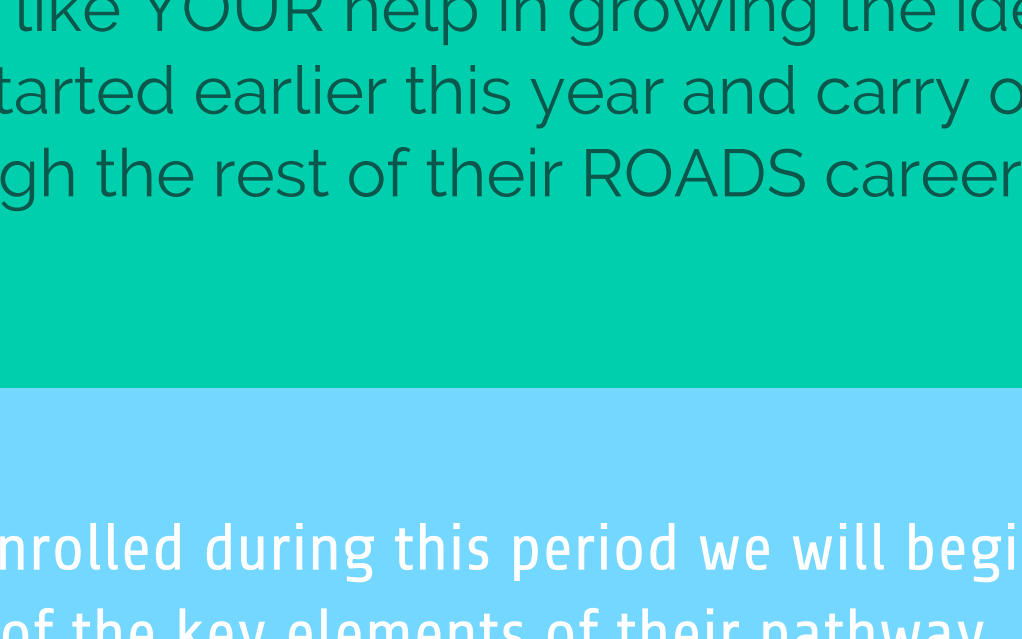

Students will be introduced to the engagement Pathways for a second time beginning the week of October 17th. We will go to each class and enroll students, this will also be the last time that students will be able to change their pathway for the remainder of the school year.

How can you help?

Make a brief announcement about the engagement pathway on the designated day to get the students thinking about it

2 Phase 2: Enrollment

Students will enroll in an Engagement Pathway that will streamline their focus not only for their electives, but also their lives post ROADS

I would like YOUR help in growing the ideas that started earlier this year and carry on through the rest of their ROADS careers

Once a student is enrolled during this period we will begin to implement all of the key elements of their pathway.

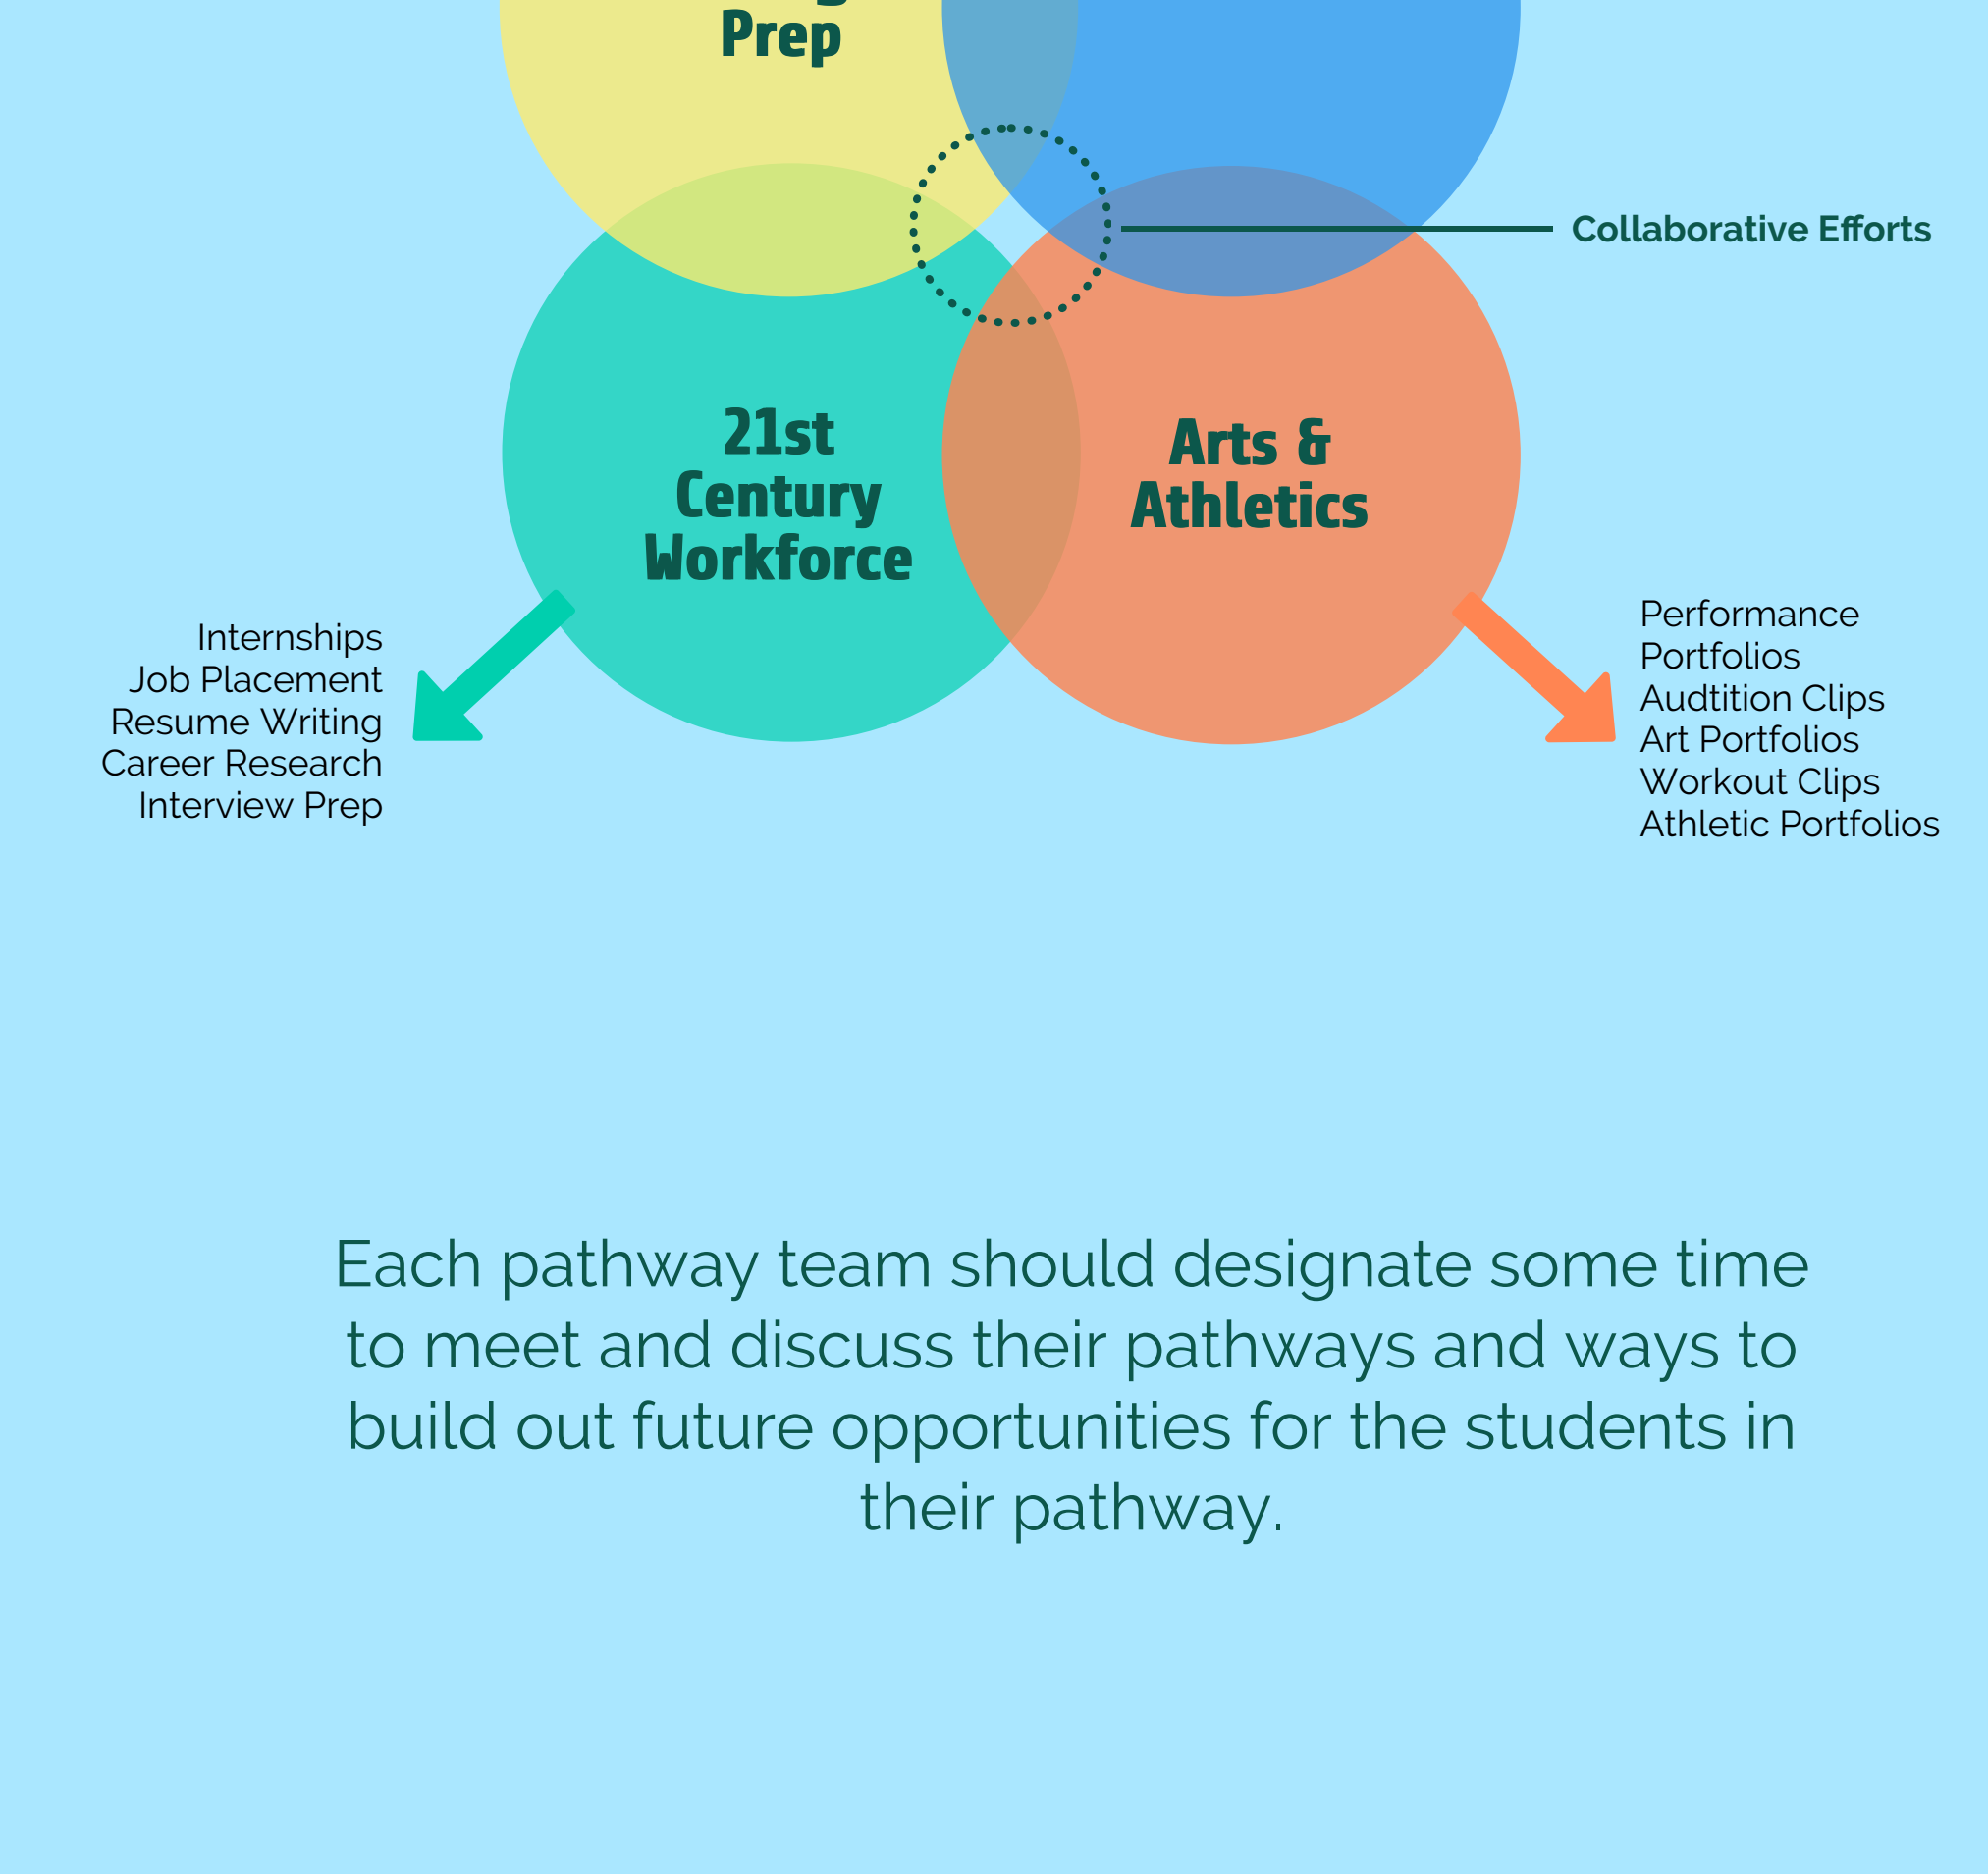

Pathway Leaders

College Prep	K. Robinson
21st Century WF	W. Tinglin
Arts & Athletics	A. John
Vocational	D. Seymour

3 Phase 3: Action Key Elements & How you can assist

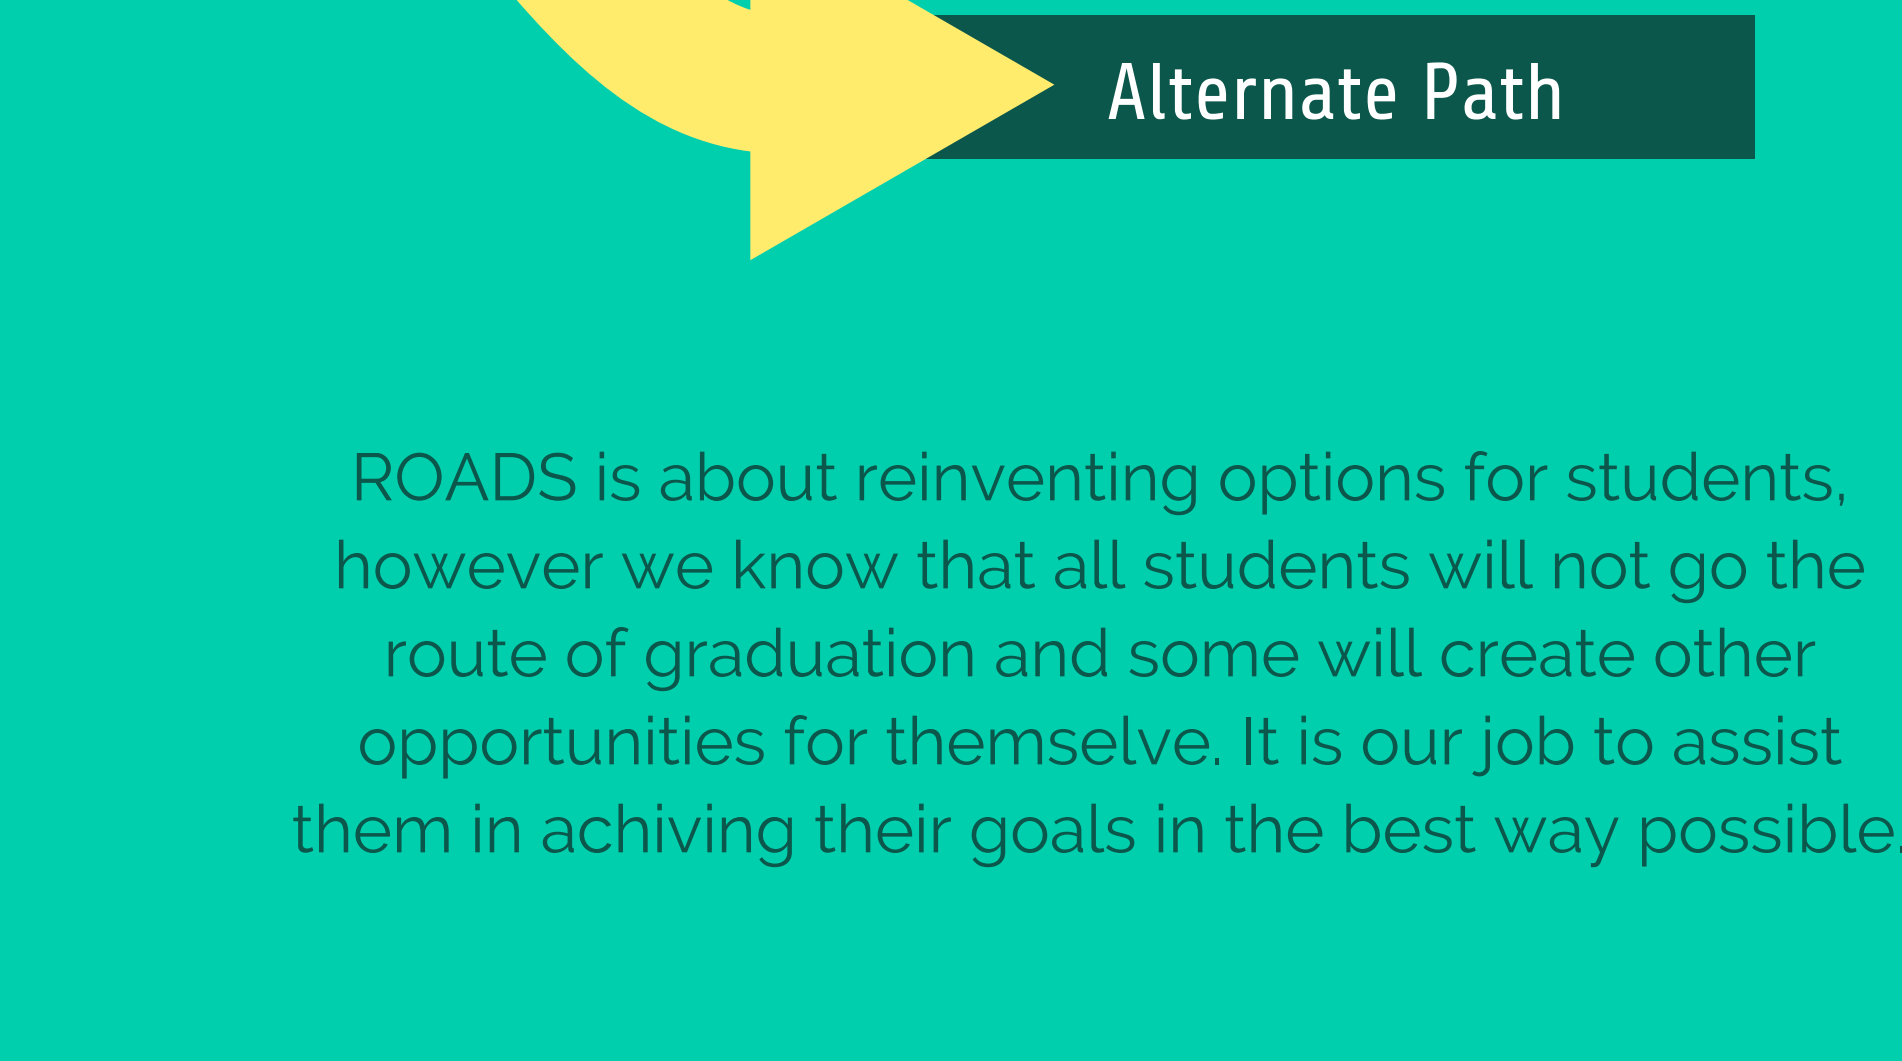

We each play a pivotal role in developing the lives of our young people. There will be action plans developed by each of the Pathway Leaders. You can help by assisting them in planning the events, planning field trips for the pathways, acquiring guest speakers, developing and/or acquiring resource materials, and leading pathway initiatives.

Key Elements (Examples)

Each pathway team should designate some time to meet and discuss their pathways and ways to build out future opportunities for the students in their pathway.

4 Phase 4: Portfolio / Progress Tracking

ROADS is about reinventing options for students, however we know that all students will not go the route of graduation and some will create other opportunities for themselves. It is our job to assist them in achieving their goals in the best way possible.

Possible Pathway Interactions

WE CAN DO THIS!!!
